

refining the obvious

W+ makes it easy to offer a healthy alternative

Common sense and nothing else. That's the concept behind the 'W+' series of vitamin drinks from Company Water. Based on the soft and natural mineral water flowing from our own Nornir source, which is approved for using in children's food, we have developed a range of tasty drinks for everyone searching for enhanced health, energy and well-being.

With W+ vitamin drinks on your shelves, it is easy to offer a healthy alternative. The range consists of 100 % pure mineral water to which natural herbal and fruit extracts have been added plus important vitamins and minerals. At the same time, four tasty variants each with their respective health profile provide a wealth of choice for customers.

In developing the W+ series, we have focused on appealing flavours and adding vital vitamins and minerals which, for example, can strengthen the immune system, energise, counter stress and generally support a healthy, active lifestyle.

With Company Water as your business partner, you can look forward to all-inclusive solutions and considerable flexibility. We can supply the full assortment under the W+ brand or as a private label product in PET bottles or using bag-in-box solutions. We have an extensive range of different bottle types in stock, and we can develop special designs for your business as you require.

Primary target groups:

16-36 years, urban, trendy, fashion, music, art, sport.
Purposeful young people and those living a healthy lifestyle.

36-55 years, art, design, lifestyle, health, family.
Those with a sense of quality and health
